

database.ServerDatabaseTest.test
_banking_ids

database.ServerDatabaseTest.test
_total_balance

database.ServerDatabaseTest.test
_transaction

client.client.get_name
_reference

```
graph LR; A[database.ServerDatabaseTest.test_banking_ids] --> D[client.client.get_name_reference]; B[database.ServerDatabaseTest.test_total_balance] --> D; C[database.ServerDatabaseTest.test_transaction] --> D;
```

The diagram illustrates a mapping from three database test methods to a single client method. On the left, three white rectangular boxes are stacked vertically. Each box contains a fully qualified Python method name. Blue arrows originate from the right side of each box and point towards a single gray rectangular box on the right. This gray box also contains a fully qualified Python method name. The arrows indicate that the three database test methods are associated with or mapped to the client method.
